

Frequently Asked Questions

INTRODUCTION & REGISTERING

What is SecurLOCK™ Equip?

SecurLOCK Equip is a mobile app that allows you to control how, when, and where your debit and/or credit cards are used. It is a simple and secure way to manage and monitor your payment transaction activity. SecurLOCK Equip can help keep your payment cards safe and provide instant notifications whenever your card is used.

What is required to use it?

SecurLOCK Equip requires you have a debit card account issued from HAVANA NATIONAL BANK. You will also need an Apple or Android smartphone. After downloading the app, you will be instructed to enter your full account number followed by other authentication information. Once registered, you can begin using the app immediately.

How do I get the SecurLOCK Equip app?

SecurLOCK Equip is available on Apple and Android mobile devices. If you have an iPhone, download the app from the Apple store. If you have an Android phone you are able to download the app from the Google Play store. Once the app has successfully downloaded to your mobile device, you can begin the card registration.

Is there a fee to use the app?

No. It is provided to you FREE so you have more control over your card.

How many cards can I register?

Unlimited if they were issued by HAVANA NATIONAL BANK.

What kind of mobile devices are supported?

Android – version 4.1 or later and Apple (iOS) – device model 4S, 5, 5C, 5S, 6, or 6 Plus with iOS operating system version 6, 7, or 8 and all future device/release going forward.

What if I am having trouble during registration?

Please use the Contact Us button at the bottom of the landing page and one of HAVANA NATIONAL BANK support agents will be more than happy to assist you.

Why do you need my email address?

Your email address is needed in case you forget your password and need to reset it.

Do I need internet for the app to work?

Yes, you will need data or wifi for the app to work.

What if I have my debit card turned off and have lost my phone?

Call us at 309/543-3361 and we can turn your card back on until you are able to get logged into a new device.

CONTROLS & ALERTS

Once I register my cards how do I begin managing and monitoring my payment activity?

You can begin using the service immediately. When turning the card off, the little green button in the top right corner of the card image will turn to red. This means that all transactions (except recurring) will be declined. When ready to make a purchase, a user can turn the card back on instantly. After you become comfortable with the on/off function, you can start selectively setting controls and alerts by channel (in-store, online, mobile, ATM, etc.). You can also set transaction spend limits, select geographic locations where the card can be used, set specific merchant categories, view recent transaction history, receive real-time alerts and much more.

What is a real-time alert?

It is an immediate push notification sent to the app. You can select to be alerted on all payment transactions including recurring payments, or you can select just preferred transactions.

Preferred alerts are available by spend limits, location, transaction type and merchant category.

By turning my card off am I closing my account?

No. Using card controls does not change the status of your account.

How long does it take for a control or alert setting to take effect?

It happens immediately after you set and save the option.

If I have my card turned off will my recurring transactions go through?

Yes. Merchant recurring transactions will be approved. Additionally, you can select to receive alerts on recurring transactions as well.

Can I use My Location, My Region and International at the same time?

Where My Locations and My Region work independently or together neither can be used in conjunction with International. *If you plan to travel outside of your normal area, please call us at 309/543-3361 to put an alert on your account.

I turned my card on and set My Location. I was at the merchant, and my transaction was still declined. Why?

The processing for the merchant may be done at a different location. You can turn off the My Location feature and try again.

What are Alert Preferences?

Alert preferences let you know every time a card transaction is attempted. You can be alerted for all, or individually selected transactions. Preferred alerts are also available by location, transaction type, merchant type, and threshold amount.

My alerts are supposed to notify me of every transaction, but I am not receiving them.

Only the primary device will receive alerts. Use the settings menu in the app to set your device as primary.

MANAGING THE APP

Once I get a new, replacement smartphone how do I begin using the service again?

Just download the app to your new smartphone and login with your current user id and password. You can then set your controls and alert preferences.

I received a new card number. Will it be automatically updated in the app?

When a card number changes, the cardholder will need to add the new account to the app. This can be done by going to Manage Account and adding the card. Be sure to “unmanage” the old card.

What if I need help with the app?

There is a “Help” function within the app as well as a “Contact Us” category where you can send an email to HAVANA NATIONAL BANK. You can also call us during regular business hours at 309-543-3361.

How long will my transaction history display?

The last 50 transactions will display in the app for thirty calendar days.

My pending purchase shows it is for more than I paid. Why?

Some merchants send pre-authorizations at higher amounts to test cards' validity. For example, a \$25 gas purchase might display as \$26. Pre-authorizations are common at the pump, for a hotel stay, or for a car rental. Even though the charge is listed in the app for more, it will clear your account for the correct amount.

I only want to manage one of my cards, but they're all being displayed.

To select the card(s) you wish to manage, go to Settings and choose Manage Cards. Then uncheck the card or cards you don't want to manage. Once a card is unmanaged, controls and alerts cannot be set for that card.

How do I access the menu or log out?

Press the icon that has three stacked lines to reach the menu. This icon is usually found in the top right corner.

How do I get more information about the features and functionality of the app?

A “Help” icon can be found at the bottom of the login page and listed in the menu. On specific pages such as the My Location page tapping the “i” next to My Regions will open a window with detailed information on how the control works.

What if my smartphone is stolen? How secure is the app?

The app requires a password to access the app. Also, personal information is not stored on the mobile device. The app only displays the last four digits of your card number.
